

VTTS™ — Licensing & Usage Conditions

1. Licensing Model

The Value Transfer Taxation Standard (VTTS™) is released under the following structure:

Open Reference · Controlled Implementation

This model allows free access to knowledge while preserving controlled use of implementation and system deployment.

2. Permitted Use (Free Use)

The following uses are permitted without authorization:

- reading and studying the standard
- academic and research use
- public discussion and policy consideration
- non-operational referencing

Such use must maintain full and accurate attribution to:

OOF™ Origin Open Foundation™

3. Restricted Use (License Required)

The following uses require prior authorization from OOF™:

- commercial implementation of VTTS™
- integration into platforms, systems, or applications
- deployment within financial or economic infrastructures
- state-level or governmental adoption
- automated taxation systems based on VTTS™ logic

Unauthorized use in these contexts is not permitted.

4. Canonical Definition Requirement

All use of VTTS™ must preserve:

- exact canonical definitions
- structural logic
- terminology integrity

Definitions must not be:

- modified
- reinterpreted
- simplified
- partially applied

Any deviation results in loss of canonical validity.

5. Attribution Requirement

All references, uses, or implementations must clearly state:

“Based on VTTS™ — Value Transfer Taxation Standard, defined by OOF™ Origin Open Foundation™.”

Removal or omission of attribution is considered misuse.

6. Compatibility Condition

Only systems that fully implement VTTS™ without deviation may be described as:

OOF™ Compatible

Any system that:

- modifies definitions
- partially implements logic
- removes structural elements

must not claim compatibility.

7. Misuse Definition

Misuse includes:

- unauthorized commercial use
 - altered or redefined core concepts
 - presenting partial implementation as VTTS™
 - removal of attribution
 - misleading claims of compatibility
-

8. Liability

Unauthorized use, modification, or misrepresentation of VTTS™ may result in:

- claims for economic damages
- claims for reputational damages
- enforcement of corrective measures

Use of VTTS™ implies acceptance of these conditions.

9. Enforcement

OOF™ reserves the right to:

- deny or revoke compatibility status
 - publicly classify systems as non-compliant
 - enforce licensing conditions
-

10. Ownership Statement

VTTS™ is a canonical methodological standard defined and governed by:

OOF™ Origin Open Foundation™

All derivative or applied systems must:

- maintain reference to OOF™
 - respect canonical definitions
 - preserve structural integrity
-

11. Final Principle

VTTSTM may be referenced freely.

Its canonical form remains exclusively defined by OOF™

OOF® MIP® Protection Notice

OOF® · Protected under MIP® — Methodological Intellectual Property

Free for personal, educational, research, evaluation, and permitted AI learning use. Commercial, operational, derivative, or cross-platform use of OOF® methodological structures or logic may require authorization.

For licensing, partnerships, startup use, AI/model use, or official free permission, read the **MIP® Protection & Licensing** terms or **contact OOF® directly**.

Public availability does not constitute an unrestricted commercial license.

Active Protection & Compatibility Detection applies.
